**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Steven A. May on 10/11/05. The application has been amended as follows:

**In the claims:**

In claim 1, after line 7, dependent claim 3 has been added as follows: -- wherein the step of transmitting a grant of access to the reverse link traffic channel comprises steps of: determining a time that a demodulator will be available; determining a time that a grant of access to the reverse link traffic channel can be transmitted based on the time that the demodulator will be available; and transmitting an access grant based on the received request and on the determined time that the grant of access to the reverse link traffic channel can be transmitted.--

In claim 8, after line 13, dependent claim 10 has been added as follows: -- wherein the means for generating a grant of access to the reverse link traffic channel comprises: a means for determining a time that a demodulator will be available; a means for determining a time of transmission of a grant of access to the reverse link traffic channel based on the determined time of demodulator availability; and a means

for generating an access grant based on the received communication resource access request and on the determined time of transmission of the access grant.—

In claim 15, after line 15, dependent claim 17 has been added as follows: --  
wherein the means for generating a grant of access to the reverse link traffic channel comprises: a means for determining a time that the demodulator will be available; a means for determining a time of transmission of a grant of access to the reverse link traffic channel based on the determined time of demodulator availability; and a means for generating an access grant based on the received communication resource access request and on the determined time of transmission of the access grant.—

(End of Amendment)

**Note:** The above amendment has been made in order to put the claims in condition for allowance by adding the allowable subject matter from claims 3, 10 and 17 to independent claims 1, 8 and 15, respectively.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:
3. Regarding claims 1, 8 and 15, the prior art of record teaches in a broadband communication system, a method, apparatus and device for allocating a communication resource that comprises a reverse link traffic channel, the method comprising steps of: receiving a communication resource access request at a time that data received via the reverse traffic channel is currently being demodulated; and in response to receiving the

Art Unit: 2684

communication resource access request, transmitting a grant of access to the reverse link traffic channel.

However, the previous art of record fails to teach, in individual or in combination, where the step and means for generating a grant of access to the reverse link traffic channel comprises: **determining a time that a demodulator will be available; determining a time that a grant of access to the reverse link traffic channel can be transmitted based on the time that the demodulator will be available; and transmitting an access grant based on the received request and on the determined time that the grant of access to the reverse link traffic channel can be transmitted.**

Claims 2, 4-7; 9, 11-14 and 16, 18-24 depend upon claims 1, 8 and 15, respectively; therefore, the examiner gives the same reasons for allowance as set forth above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
